DRUGS, &c.

THE GREAT CHINESE REMEDY! CONINE'S Syrup of GINSENG AND MALVA .- This medicine depends more upon its own virtue and actual merit than any other ever before offered to the public. In China, it is the potent and effectual remedy for Affections of the Lungs : but what will particularly attract attention, is its astonishing Dissolvent power, by which it at once removes all Phlegm, or extraneous matter, from the Throat, Stomach or Lungs. It is therefore Anti-Expectorant, and from attestations of trial here, it is now offered as Nature's kindest remedy for the removal of Consumption, Whooping Cough, and all Coughs, by precipitating the phlegm, instead Honolulu.

of creating irritation by expectoration.

N this preparation all the restorative properties of the root are concentrated in their utmost forms an important part of it combination it is, g remedies of great power, and it is in the peculia combination and scientific manner of its preparation that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three diff. erent kinds of medicine, are carried on at the same time, through the instrumentality of this one reme-BEST QUALITY BAY WATER and Burning dial agent which gently stimulates, while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Many other preparations imitate it in bearing the name of Sarsaparilla, and in that their resemblance ends, being often prepared from worthone entitled to their confidence from the long list of of cures it has effected and living witnesses whose testimonials and residence have been published, anwho are still bearing daily testimony to its worth. ASTONISHING CURE.

Patterson, N. Y. 20th, 1851. Messrs. A. B. & D. Sands: Gentlemen .- Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848 he took a severe cold, and after eight weeks of severe suffering the disease settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven ulcers formed on the leg and foot at one time. We had five different Physicians, but none relieved him much: and the last winter found him so emaniated and low NDIA RUBBER TOYS, of all shapes and kinds, that he was unable to leave his bed suffering the most excruciating pain. During this time the bone had excruciating pain. During this time the bone had become so much affected that piece after peice came out, of which he has now more than twenty-five preserved in a bottle, varying from one half to one and served in a botin length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and with its use his health and appetite began immediately to improve, and so rapid was the change that less than a dozen bottles, effected a perfect cure,

With gratitude, I remain truly yours, DARIUS BALLARD We the undersigned, neighbors of Mr. Ballard, cheerfully subscribe to the facts of the above state-

& D.SANDS, Druggists and Chemists, 109 Fultonst., corner of William, New York. Sold also by Druggists generally throughout the United States and Canadas. The value of this Medicine is now widely known, YORN STARCH.—The best diet for the sick, and every day the field of its usefulness is extended. It is approved, and highly recommended by Physiians, admitted to be the most powerful and searching preparation from the root, that has ever been employed in medical practice. Its operation extends to the remotest parts of the system, and consists in

removing diseased action in the absorbing and secreting organs. In man, Nature seldom effects, unassisted, the cure of any virulent disease, but requires the aid of a stimulant, alterative, or antiseptic medicine. In diseases of the skin and flesh, a combination of these three classes of medicinal agents is nighly desirable. All these properties are combined in this preparation; and instead of operating successively upon the system, as they must necessarily do when taken separately, they operate simultaneous ly, and in perfect harmony when administered in this form. Its tonic property strengthens the di-gestion, and improves the appetite.—Its alterative tendency carries off the accumulations of morbid virus, by which the disease is fostered.
